

# AGREEMENT

OneChicago requires each Clearing Firm and Exchange Member to designate at least one employee or agent as its administrator (the “Responsible Administrator”) for the use of the OneChicago System(s) by such Firm and its Related Parties or, in the case of a Clearing Firm only, the Access Persons that such Clearing Firm has permitted to act as such.

Clearing Firms and Exchange Members must designate its Responsible Administrator(s) on the “Responsible Administrator Supplement” on this designation form. The designation is effective upon submission to OneChicago of this fully completed and signed agreement, and remains effective until the designating Member or Firm submits a revised Responsible Administrator Designation Form. Each legal entity that qualifies as a Clearing Firm or Exchange Member under the OneChicago Rules is required to submit a separate Responsible Administrator Designation Form.

**By signing this agreement, the Named Entity certifies that the undersigned individual is an authorized Officer of the Named Entity, or otherwise duly authorized to make the foregoing Responsible Administrator designation on behalf of the Named Entity. The Named Entity further certifies that the Employees and/or Agents named “Responsible Administrators” have full authority to act as a Responsible Administrator for the Named Entity as outlined in the OneChicago Rules, and that the Designees have access to all computer systems, premises, personnel and other resources of the Named Entity necessary to fulfill their obligations and responsibilities under such Rules.**
